1 Secure the mounting plate to the junction box.

2 Connect the fixture to a suitable ground in accordance to local electrical codes.

3 Connect the white fixture wire (square and/or rigid) to the neutral power line wire with a wire nut.

4 Connect the black fixture wire (round and/or smooth) to the hot power line wire with a wire nut.

5 Neatly place all the wires into the junction box, place the canopy onto the ceiling, and secure it in place with the provided canopy screws.

6 Install the plate over the socket and install the lamp by inserting it into the socket, Refer to the label on the socket for Max Wattage Information.

7 Carefully screw the shade onto the socket. **Do not over tighten. Make sure the shade is installed correctly before releasing.** Repeat steps 6 and 7 for remaining sockets.
